A New Office Complex

Three new office buildings, two of 10,000 sq ft and one of 7,000 sq ft, will shortly be under construction off Communications Road, to compliment The Base café and gallery opposite, and to further enhance the main entrance into the park.

The buildings will be built to an excellent specification, with steel portal frames and metal cladding. One of the new buildings will be three storeys and the other two will be two storeys.

Two of the buildings have already been taken by one national and one regional occupier. The third building is a speculative construction - we hope to attract a tenant during the construction phase.
We are delighted to announce that the café in the new building, The Base, due to open early in the new year, will be run by a local company which has an excellent track record in the local community.

The Honesty Group, as well as being master bakers supplying farm shops, restaurants, hotels, and individual customers, also runs several coffee shops in both Berkshire and Hampshire.

The Crown and Garter Pub in Inkpen is also part of the Honesty Group and won the British Pub Awards in 2015 as Best Newcomer in the South East and London.

The café will serve a range of delicious snacks and full meals designed to meet the requirements of busy workers and also suitable for business lunches.
Be part of our annual family fun run around Greenham Common
Sunday 14th October

Recorded Official Times
Winners’ Trophies and Prizes
Competitors’ Medals, T-shirts and Goody Bags

X The Race Village and Start and Finish lines will be situated at the Venture West car park at Greenham Business Park
Diamond Quality Care, based in a modern, purpose-built centre on Greenham Business Park, was founded 8 years ago by husband and wife team David and Ali Tait to support adults with acquired physical disabilities, neurological conditions and acquired brain injuries.

Through a range of activities designed to suit each individual, such as photography, food preparation, sailing, art therapy and IT, Diamond’s 160+ clients are encouraged to increase social awareness and develop new life skills, as well as being able to participate in sessions in the gym and aqua therapy pool to allow them to regain or maintain physical mobility.

David Tait said: “We do our utmost in order to give our clients a better life and a chance of independence. If a 90 year old client wants to abseil, we’ll work out how to achieve it.”

This unusually holistic approach is incredibly successful, from the wheelchair bound man who was able to walk his daughter down the aisle, to clients who have met at the centre and married. In fact Diamond is so successful that the company has been invited to participate in a Parliamentary Review of innovative businesses.

FRIDAY 5 OCTOBER

Byte Night
THAMES VALLEY

Join us there.

From 6pm

Friday 5 October

Indoor venue:
Reading Town Hall

Sleepout venue:
Forbury Gardens

Swap your suit for a sleeping bag.

What’s it all about?

Byte Night is the UK’s largest national corporate sleepout event – 2,000 participants across 12 regions.

It’s been running for 21 years – helping Action for Children to offer vital support to thousands of young people across the UK.

Originally, the event was aimed at the technology sector – hence the name – but it now attracts wonderful fundraisers from all different industries.

On the night, you’ll get the chance to network with likeminded business folk, including teams from Barclays, Grant Thornton and Sage and meet some of the incredible young people Action for Children is helping, before sleeping out for one night – an experience with a serious message.

Why should you sleep out?

83,000 young people are homeless in the UK, each year. Action for Children believe this is unacceptable. That’s why we do everything we can to step in early, before ‘home’ becomes a cold, hard paving stone.

Byte Night generates essential funding for Action for Children’s services across the country, including those based in Thames Valley, helping us to reach young people before they see life on the street as their only option.

Sleep out so they don’t have to.
